## PHOTOGRAPHY TIPS

- Set cameras & phones (if able) to **highest quality**.
- Photos downloaded from websites are often not good for printing and will appear grainy. *Some organizations & dioceses maintain high quality photos albums on Social Media that are usable.*
- Photos with a file size over 2MB are good.

### Pros & Techies:

Ideal size is 300 dpi at 5"x7" or larger; 1500-3000px • RGB or CMYK
